

# TWS Level 1 - Confined Space Awareness

## Attention Managers - Health & Safety Supervisors

---

Workplaces with one or more confined spaces must ensure all employees working in or around the hazardous area have received Confined Space Awareness training. Workers in British Columbia are required to have comprehensive training that meets *CSA standard Z1006-16 Management of Work in Confined Spaces* and *WorkSafeBC's Workers Compensation Act, Part 3: OHS and Occupational Health and Safety Regulation, Part 9: Confined Spaces*.

Reference: <https://www.worksafebc.com/en/law-policy/occupational-health-safety/searchable-ohs-regulation/ohs-regulation/part-09-confined-spaces>

WorkSafe BC requires employers and supervisors to be responsible for ensuring all workers are:

- Adequately trained and certified
- Provide direct supervision and correct unsafe acts/conditions
- Ensure only authorized, adequately trained workers operate equipment
- Maintain health and safety standards

## Intended Audience - Course Overview

---

This course introduces the hazards and safety precautions required to work in Non-IDLH hazardous environments. Level 1 is intended for employees working in or around a confined space hazardous area. Participants will be provided with comprehensive theory to help understand, recognize, control and mitigate hazards related to working in or around a non-IDLH confined space.

Training will verify employee understanding and management of confined space hazards, precautions and applicable regulations as stated in *CSA Z1006 Management of Work in Confined Spaces* and *WorkSafeBC OHSR Part 9: Confined Spaces and related guidelines*.

**NOTE: This course is a pre-requisite to  
Confined Space Entry – Level 2**

## Class Size

---

Up to 12 students  
per class.

## Course Length

---

Approximately  
4 hours

## Registration Course Cost

---

Course costs may  
vary depending on  
the number of  
students and training  
location

## Record of Training Certificates

---

TWS Record of  
Training Certificates  
come with a 3-year  
validation

## Course Details

---

Each participant will be instructed on hazard identification and safe work procedures when working in or around Non-IDLH confined spaces; training is under Federal and Provincial Regulations and all Authorities having Jurisdiction. Participants will learn:

- WorkSafe BC – OHSR Part 9 and guidelines
- *CSA Z1006 Code* requirements
- Employer, supervisor and worker responsibilities
- Confined Spaces Overview
- Characteristics and hazard types
- Introduction to Confined Space Entry
- Communications and Equipment
- Air Monitoring Equipment: Care and use
- Hazardous atmospheres, physical hazards and hazard ratings
- Ventilation: Use and limitations

## About TeamWorks Solutions

---

When it comes to skills training and employee development, one thing is for sure; the more effective your training systems are, the better skilled and more productive your workforce will be. Whether you're national in scope or specialize in industry-specific markets, we can help. From training to curriculum development to supervisory leadership & due diligence, we'll work with you and your team to find the right solutions.

All TeamWorks Solutions industrial safety training courses meet Federal and Provincial legislation in British Columbia, which meets the requirements of WorkSafe BC, the Canadian Standards Association and other applicable Authorities Having Jurisdiction.
