

TWS

Fire Safety Awareness

Attention Managers - Health & Safety Supervisors

WorkSafeBC's *OHS Regulation Part 4.13-4.18 Emergency Preparedness and Response* requires employers to provide "adequate instruction in the fire prevention and emergency evacuation (and response) procedures applicable to their workplace." Employers must also ensure that "emergency drills must be held at least once per year to ensure awareness and effectiveness of emergency exit routes and procedures, and a record of the drills must be kept."

Reference: <https://www.worksafebc.com/en/law-policy/occupational-health-safety/searchable-ohs-regulation/ohs-regulation/part-04-general-conditions#SectionNumber:4.16>

WorkSafe BC requires employers and supervisors to be responsible for ensuring all workers are:

- Adequately trained and certified
- Provide direct supervision and correct unsafe acts/conditions
- Ensure only authorized, adequately trained workers operate equipment
- Maintain health and safety standards

Intended Audience - Course Overview

This course is intended for all workplaces in British Columbia. It is designed to provide participants with the knowledge and skills necessary to prevent, identify, and respond to fire emergencies in the workplace. This course will cover essential fire safety principles, evacuation procedures, and fire prevention measures, including the proper use of fire extinguishers. Through theoretical instruction, visual demonstrations, and exercises, participants will develop a comprehensive understanding of fire safety and contribute to a safer work environment.

Class Size

Up to 12 students per class.

Course Length

Approximately 4 hours

Registration Course Cost

Course costs may vary depending on the number of students and training location
